Projects

**Our assets—the
Horwood Property
and the Kabik
Lake Property—are
located in two of
Canada's most
prolific greenstone
belts.**

Our Properties

Horwood Property

4,957 hectares in the Swayze Greenstone Belt, with historic gold production and multiple showings along major regional fault zones.

Kabik Lake Property

1,170 hectares in the Eagle-Wabigoon-Manitou Belt, next to Treasury Metals' Goliath Gold Complex, yet virtually untouched by modern exploration.

Why Invest in **Avventura**

With strong geological foundations and a commitment to responsible exploration, Avventura Resources is positioned to unlock value in underexplored, high-potential gold belts.

Strong Historical Indicators and Structural Geology

The Horwood and Kabik Lake properties are underpinned by historic gold occurrences and major regional fault zones, offering strong geological indicators for discovery.

Tier-1 Mining Jurisdiction - Ontario, Canada

Ontario offers world-class mining infrastructure, stable regulatory frameworks, and a rich legacy of gold production, providing a low-risk, high-potential environment for mineral exploration and development.
